To Whom It May Concern,

I am writing about the Low Power FM service that is being considered. I know that I missed the filing deadline for comments but I still wanted to write and let you know that I think that this is an important proposal. I would like to see the LPFM passed and I think that it would give more opportunity to smaller broadcasters who would consider the local community more carefully and consistently than the larger networks of broadcaster currently do. I appreciate your time and anticipated cooperation.

Thank you,

Barbara Helfrey
